Meeting Topic: Delta Vision – An Interactive Workshop

We all know that the Sacramento-San Joaquin Delta is in trouble. The Delta comprises:

- A complex ecosystem facing multiple threats
- Levees in peril from erosion and natural disaster
- Extreme pressures for land use development; and
- The very heart of California's main water supply system.

What is *your* vision for the Delta in the year 2020? 2050?

First, we will get an update on major centers of Delta activity currently underway – the Delta Risk Management Study, the Bay-Delta Conservation Plan, the Stakeholder Coordination Group. With that common background, you are invited to join the dialogue and share your vision for this vital resource.
